In the Matter of)
) Administrative Action
)
 IVETTE DAUHAJRE, D.D.S. ORDER

This matter was opened to the State Board of Dentistry ("Board") upon the filing of a Petition for Modification of a Consent Order filed with the Board on November 17, 1989, by Howard I. Bushin, Esq., on behalf of Ivette Dauhajre, D.D.S. The Consent Order placed numerous restrictions on Dr. Dauhajre's license to practice dentistry in this State as a result of allegations that she was observed inhaling nitrous oxide while engaged in the practice of dentistry. The Consent Order also provided that Dr. Dauhajre could apply for modification of the terms of the Order no sooner than one year from its entry date and subsequent to a psychological evaluation by a Board appointed psychologist. The Board having reviewed the entire record in this matter including, but not limited to, the Petition for Modification; the psychological evaluation of Frank J. Dyer,

Ph.D., the Board appointed psychologist; the various reports received since the entry of the Consent Order from Anna Falcone, M.A., M.S.W., Dr. Dauhajre's therapist; the urine monitoring reports; and the history of the case, and the Board finding that Dr. Dauhajre has complied with all aspects of the Consent Order and that good cause exists for discontinuing the current restrictions on her licensure;

IT IS ON THIS 20th DAY OF MARCH, 1991,

HEREBY ORDERED THAT:

1. All conditions and restrictions on the license of Ivette Dauhajre, D.D.S., to practice dentistry in the State of New Jersey contained in the Consent Order filed on November 17, 1989, shall be terminated effective the entry date of this Order. Accordingly, Dr. Dauhajre's license to practice dentistry shall be reinstated without restriction.

William Cinotti, D.D.S.
President
State Board of Dentistry
